

KPA Introduces a New Offer for

# ARAU Affiliate Program

**Access for all affiliate member employees to 14 high quality, interactive courses. Just \$1500 a year!**

## Available EHS Courses

### ◆ Back Injury Prevention

This course covers back anatomy, back injuries, injury avoidance, and prevention.

### ◆ Blood Borne Pathogen Program Assessment

Answer a few questions to find out if OSHA regulations require you to have a Bloodborne Pathogen Program at your facility.

### ◆ Emergency Response

Learn how to respond to emergencies involving Fire & Explosion, Facility Evacuation, Spill Response, Chemical Overexposure, and Natural Disasters.

### ◆ Environmental & Safety Risk Assessment

This assessment shows if you have addressed all the critical things you need to do from an environmental and safety perspective to make sure you're protecting your employees, running your department safely and efficiently, and staying compliant with federal regulations!

### ◆ Forklift Safety Training

This instruction will focus on providing general guidelines on forklift operation and general safety guidelines (also includes rough terrain forklifts).

### ◆ Forklift Training Requirements for Supervisors

This training you will get access to a written forklift training program, inspection checklists, and the practical evaluation checklist.

### ◆ Hazard Communication

Learn how to use your written hazard communication program, chemical inventory, safety data sheets, and container labeling to protect yourself on the job.

### ◆ Hazardous Waste Management

This training covers Federal EPA requirements for handling hazardous waste at a facility.

### ◆ Heat Illness Prevention

Learn about the risk factors associated with heat illness as well as five types of heat illness, their symptoms and possible response options.

### ◆ Lock Out / Tag Out

This training will cover the requirements for Lockout / Tagout as well as the procedures locking out and tagging out machinery.

### ◆ myKPAonline LMS Overview

Walk through how to use the learning management portion of myKPAonline.

### ◆ Personal Protective Equipment

This training is about Personal Protective Equipment and when it is required.

### ◆ Safe Driving Training

This course will help you increase the number of safety precautions you take every time you get behind the wheel.

### ◆ Slips, Trips & Falls

Effectively identify potential slip, trip, and fall hazards in your workplace. Also learn how to eliminate hazards after they've been identified.
